

# Take the work out of paperwork

Populate multiple carrier forms for your clients from one unique link.

BlockForms transformed the application process for employee benefits by giving brokers a single digital form to automatically transmit information to each carrier's form. No more printing, signing and scanning back-and-forth between your clients and carriers.

## Simplify & Save

How much time does your team spend completing forms for clients? BlockForms simplifies the process by reducing the time spent interacting with multiple carrier forms and only asking redundant questions once.

### BlockForms improves your workflow efficiency

- Eliminate repetitive data entry
- Reduce errors
- Store data for renewal
- Save time and money

## Features

Developed by a team of insurance, data science and software development experts, BlockForms includes these intuitive features:

- Bank-grade security
- Built-in electronic signatures
- Form builder tools
- Salesforce integration

## Why BlockForms

- **Efficiency**  
Improve accuracy with less data entry
- **Simplicity**  
Eliminate form friction with clients
- **Retention**  
Build stronger client relationships
